

Connaught School

School Digital Citizenship Plan 2024-2025

Relevant contextual information about your school and School Development Plan:

- K-6 school with diverse population including a high proportion of English as an Additional Language Learners (EAL)
- Many students frequently travel in and out of the school, community, city, and country

Relevant evidence and data that informs your Digital Citizenship Plan:

- Many students are new to using digital tools to support their learning
- Students in Grades 4 through 6 can access Google Classroom and are learning to build an online identity.

School Digital Citizenship Plan						Progress		
Long Term Goal (e.g. spanning 8-10 months)	Competency (may be chosen from the CBE Digital Citizen Competencies)	Short Term Goals (in support of the long-term goal)	Outcomes	Activities & Resources	Measures	November	January	June
All students will know their @educbe.ca email address and password by the end of the school year.	I know how to protect my personal information online.	Grades 4-6 will set their own appropriate passwords by mid-year.	Students will be able to log in to school devices and maintain personal digital security.	Review resources on Digital Citizenship Insite Pages.	All students in the school will have a unique, secure password to access CBE network technology.	Reviewing school and CBE expectations. Teachers will support students in learning about digital citizenship, where to find technology, how to take care of it, and how to sign in.	Determining email addresses and new passwords with students.	Students will independently log in to school devices and maintain personal digital security.
		Grades 2-3 will know their email address by mid-year	Students will begin to log in independently with fewer supports over time.	Targeted lessons on creating strong passwords. Students will learn how to reset passwords	75% students will be able to keep their passwords private and know how to reset them, as needed.			

		Grades 2-3 will set their own appropriate passwords by the end of June 2025.		using the Student Account Tool. Examples and non-examples of positive digital footprints will be shared with students	75% of students will remember their own @educbe.ca email address.			Students will explain how to create a strong password.
All Div 2 students will demonstrate an understanding of appropriate commenting practices in Google Classroom.	I understand that anything I access, produce, and post contributes to my digital presence.	Grade 6 students will be gradually invited to leave comments in Google Classroom. Grade 6 students will engage in appropriate conversations in their Google Classroom comment sections.	Students will be able to explain what an appropriate, content-related comment is and why it is important.	Review resources on Digital Citizenship Insite Pages. Targeted lessons on how to be a good online citizen. Students will learn how to post comments and properly report inappropriate content.	75% of students will remember how to log in to Google Classroom on a variety of devices.	Review school and CBE expectations. Teachers will support students in learning about digital citizenship and “digital footprints”.	Students will know how to log in to Google Classroom on a variety of devices.	Students will demonstrate an appropriate, content-related comment in their google classroom
